OFFER TOO SMALL

Factories Will Not Be Sold at Figure Named.

United States Judge James L. Martin, of Brattleboro, has denied the application of the receiver of the Hardware & Woodenware Co. of New York, for permission to accept an offer for eleven of the sixteen factories controlled by the company, which are in the hands of a receiver. Representatives of creditors of the company when they returned to Brattleboro from New York, where the hearing was held, stated that objection to the petition was made by creditors who felt that more money should be realized from a sale of the plants. The receiver also expressed a belief that the offers for the plants might be increased.

One of these plants is the S. A. Smith factory in Brattleboro, for which an offer of \$55,000 has been made. The total amount offered for the eleven factories is \$440,375, which is less than 75 per cent of the amount due to creditors. If the bids can be increased to somewhere near the amount due the creditors, it is likely that no opposition to the sale will be made. It is apparent that the stockholders will not realize anything on their stock. The inventory of the eleven factories in question is \$1,526,319. The original owners of the factories took stock in payment when they went into the combination. Some of the factories are not doing over half the business that they were a year ago, and the falling off is due in part to the fact that the factories are in a receiver's hands. Another thing which makes it practically impossible to operate the plants at a profit is the fact that the interest charges are enormous, running from 12 to 20 per cent. Most of the factories, if sold, will continue to do business under a general management, but the plan is to operate the S. A. Smith plant through another agency.

TOUCHED MATCH TO POWDER

Burlington Boys Badly Injured by Explosion of Bottle

Burlington, June 15.—Andrew Laduke, six years old, son of Mr. and Mrs. Arthur Laduke of 33 Rose street and Leo Morin, six years old, son of Mr. and Mrs. Enola Morin of 182 Champlain street, are in a serious condition tonight as the result of a gunpowder experiment they made this afternoon.

At one o'clock a loud explosion was heard in the back yard of the Morin residence and when the parents of the boys investigated they found them blackened and torn and in a half-conscious condition. The physicians are not able to ascertain just how serious the wounds will prove because of their peculiar nature.

It is supposed that the lads obtained a bottle of gunpowder and applied a match to it, as both had numerous pieces of glass in their flesh.

The Morin boy's face was blackened and swollen and both eyes were closed and it is feared that the sight of one or both of his eyes may be lost and his hands and arms are fearfully cut.

The Laduke boy is cut about the face, but the most serious wound is a hole between the fourth and fifth ribs, apparently made by flying glass. Several surgeons have been working over the boys since the accident and their fate cannot be determined.

TAKES \$800, LEAVES WIFE \$1

Chioffi Skips With Savings They Had Jointly Accumulated

Rutland, June 16.—Leaving his wife only \$1 of more than \$800 which they had jointly saved, Joseph Chioffi of West street left this city Saturday night and it is thought that he is in Boston. The matter was called to the attention of the police last night and it is possible that a Rutland officer may go to Boston in search of the man. Mrs. Chioffi who is about 30 years of age was nearly distracted with grief last night and as she is encircled her condition is pitiful.

Chioffi is a baker and has worked at his trade in this city for the past few years. He passed the winter in Port Henry, N. Y., returning to this city a few weeks ago. While here he and his wife had saved about \$800 and deposited it in the Rutland bank all in his name. Mrs. Chioffi worked in the factory. On Saturday Chioffi without his wife's knowledge, took the bank book and drew the money leaving \$1 to his credit. He replaced the book in the usual place at home and until she looked at it yesterday Mrs. Chioffi did not suspect anything wrong. She thinks her husband has gone to Boston or in that direction.

FALLS DOWN ELEVATOR SHAFT

Henry Robinson Has Narrow Escape From Serious Injury

Brattleboro, June 16.—Henry Robinson, a young man employed in E. L. Hildreth & Co's printing plant, fell down an elevator shaft two stories this afternoon. He was cut about the head and one leg was sprained, but it is expected that his injuries will not prove fatal.

He stepped from the elevator on the top floor and another young man rode down with the elevator two floors. Robinson stepped backward into the shaft without knowing that the elevator had been moved, but he landed on his feet and then fell over striking on one side of his head, which stunned him for a few minutes. He was carried to a doctor's office.

INJURY OF CONDUCTOR

Charles Prue of Newport Loses Four Toes Coupling Cars

Newport, June 16.—Charles Prue, conductor of one of the shifting gangs in the local railroad yards, in a serious accident this afternoon narrowly escaped death. His engine was shifting the No. 2 mill when two cars failed to hitch. He stopped between them to open the knuckle and as the cars came together he caught his heel in a frog. Four toes were severed, the side of his foot badly mangled and the train was stopped just as his body was about to fall across the rail. He was taken to the office of a local surgeon and it is expected that his leg may be saved.

Peroxide of Hydrogen, regular price 25c, for 15c.

TWO NEW TRUSTEES

Goddard Seminary Board Must Elect a President

Barre, June 16.—The annual alumni exercises of Goddard seminary were held at 10 o'clock this forenoon. An oration was delivered by Willard F. Martin of Cambridge, Mass., of the class of 1889, his subject being "Twenty Years After." An original poem was read by Miss Rachel Robinson of Ferrisburg, of the class of 1897.

A meeting of the board of trustees was also held this morning. The Rev. J. Edward Wright of Montpelier was elected temporary chairman in place of the late president, Prof. W. R. Shipman of Tufts College, Medford, Mass. One of the important matters to come before the body will be the election of a new president. Two new trustees were elected the Hon. Charles H. Darling of Burlington and Wade Keyes of Boston.

This evening the annual prize speaking contest will be held in the opera house and the graduating exercises will be held at 10 o'clock tomorrow morning.

TREATMENT FOR BRIGHT'S DISEASE

(Honolulu Evening Bulletin.)

It is a curious but satisfactory fact that chronic Bright's Disease which according to medical authorities, is an incurable and fatal disease, is now actually being cured. We have not attached importance to the statements of recoveries we have seen in the papers from the states, but that they are not all rumors is now evident from several recoveries here.

A. H. Otis, of the Honolulu Drug Co., tells us of two interesting cases. One was swollen with dropsy due to advanced Bright's Disease and both the patient and his physician had given up hope. Otis kept urging a trial of the new treatment until the patient finally consented. Recovery was complete, the patient leaving a few months later for California where he now resides.

Another case was that of an officer on one of the Island steamers. He was in a hospital and considered hope less when put on the treatment. He has now been back at his post for some time.

W. L. Gokay and B. A. Quinlan heard about this and sent for it in the interest of patients here and will be pleased to give any one calling full information.

Kodol is the best known preparation that is offered to the people today for dyspepsia or indigestion, or any stomach trouble. Kodol digests all foods. It is pleasant to take. It is sold here by D. A. Ward.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
